Instructions

1 About this timetable

This timetable of all EGCSE and Cambridge IGCSE examinations available through ECESWA contains:

- Notes
- A list of examination times shown in date order
- Key

2 About the sessions and start time, and the Cambridge IGCSE KEY TIME

Examinations must be taken in the morning or afternoon timetable session as shown on the FINAL timetable and the start time shown for each paper must be adhered to by all centres.

For Cambridge IGCSE papers candidates entered for examinations in a session must be under Full Centre Supervision at the KEY TIME. Where the examination is completed before the KEY TIME, Centres must keep candidates under Full Centre Supervision until the KEY TIME.

The KEY TIME for the morning session is 11.00 am local time.

The KEY TIME for the afternoon session is 3.00 pm local time.

What does “under Full Centre Supervision” mean?

Candidates can be in the examination room, doing their examination, under the supervision of invigilators.

Or, if the KEY TIME is before the start of the examination, they must be supervised by teachers or invigilators from the KEY TIME until the start of the examination. They can have access to their books and notes, and they can talk to each. However, they must not look at books and notes on electronic devices. They must not have any access to telephones, mobile phones, laptops/computers, smart watches, or any electronic device with or without internet access, or any means of external communication; and they must not be allowed communication with anyone not under Full Centre Supervision.

Or, if they have finished their examination, they may be permitted to leave the examination room provided that they are supervised by invigilators continuously from the time they leave until the KEY TIME. Once outside the exam room, they can have access to their books and notes, and they can talk to each other (provided that they do not cause any disturbance to candidates who are still doing an examination). However, they must not have any access to telephones, mobile phones, the internet, or any means of external communication; and they must not be allowed any contact with anyone not under Full Centre Supervision.

Failure by a Centre to comply with the Regulations regarding the KEY TIME for Cambridge IGCSE papers will be considered Centre Malpractice by Cambridge International and may result in Cambridge International being unable to accept candidates' work.

Centres must report to ECESWA any incidents or irregularities amongst candidates under Full Centre Supervision, including any access to unauthorised means of communication. Such instances will be treated as Malpractice.

3 Centre arrangements

Centres are responsible for letting candidates know when their examinations will start, and for telling them about any changes to the printed timetable.

Centre arrangements must fully comply with all Regulations including those for the KEY TIME for Cambridge IGCSE papers.

4 Where there is more than one paper in a single session

Specific start times have been given to each paper in the session where this happens. Centres must start the papers for all candidates at the time and in the order shown.

If a candidate is entered for both papers, they have been allowed a short break between the two papers of half an hour. The Regulations regarding the KEY TIME for Cambridge IGCSE papers must be followed and the candidate must be under Full Centre Supervision during this break.

5 Time Allowance for Question Papers

Any time specially allocated for candidates to read through question papers and to study maps, etc., is already included in the total time allowance shown in the timetable. You must not allow any additional time.

6 Practical Tests in Biology, Fashion and Fabrics, Food and Nutrition Information and Communication Technology, and Physical Science

All practical papers must be taken in the sessions shown on the FINAL timetable.

If there are more candidates than there is space for one sitting, the examiner/invigilator may hold the test in two or more sittings, as long as satisfactory arrangements are made to ensure the integrity of the examination. Arrangements must be made to ensure that there is no communication by any means between candidates who have taken the test in the first sitting and those who are scheduled to take it in the second sitting, either at the Centre or at any other Centre. Full Centre Supervision must be observed. Centres must apply to us for approval for the use of additional sittings for EGCSE/EPCSE according to section 4.5 our handbook.

7 project exams in agricultural Technology, Business Accounting, Entrepreneurship, Information and Communication Technology, Technical Studies and Food and Textile Technology.

All project papers must take place over the period specified by ECESWA. Integrity of the examinations must be ensured throughout the duration of the project.

8 EPCSE Information and Communication Technology Paper 2 (Part A and Part B)

After Candidates have finished writing Paper 2A, they may be allowed to leave the examination room. They must reconvene for Paper 2B. In the case the Centre has more than one group, Full Centre Supervision must be observed.
